Message from the President

It gives us great pleasure to introduce the 2025 Annual Report of Ogaki Kyoritsu Bank.

Ogaki Kyoritsu Bank is a regional financial institution headquartered in Gifu Prefecture, approximately the center of Japan.

Our domestic network of 157 branches and offices is centered in Gifu, Aichi, Mie, and Shiga Prefectures.

Since the Company was founded in March 1896, it has been guided by its management vision of always being respected and trusted by the local community. We have advanced in step with our region, always aiming to earn and maintain the unshakable trust of our customers, shareholders, financial markets, our employees and members of regional community.

Adopting the standpoint of our customers, all members of Ogaki Kyoritsu Bank and its 10 consolidated subsidiaries and affiliates—in addition to deliver more convenient products and services, collectively comprising the Ogaki Kyoritsu Group—will work together to help revitalize the regional economy.

T. Hayaski

Takaharu Hayashi President

OKB Group Charter - We will each think and act for the best, and continue to tackle the challenges of our age - We will seek the satisfaction of our customers - We will always give high-quality service - We will grow together with our community - We will ensure compliance and carry out our business fairly and in good faith

The OKB Group, including Ogaki Kyoritsu Bank and its subsidiaries and affiliates, has enacted the OKB Group Charter.

Each and every person in the Group pledges to uphold OKB's culture, traditions, and way of thinking. We will thrive in tandem with our region and take the customer's point of view in all things.

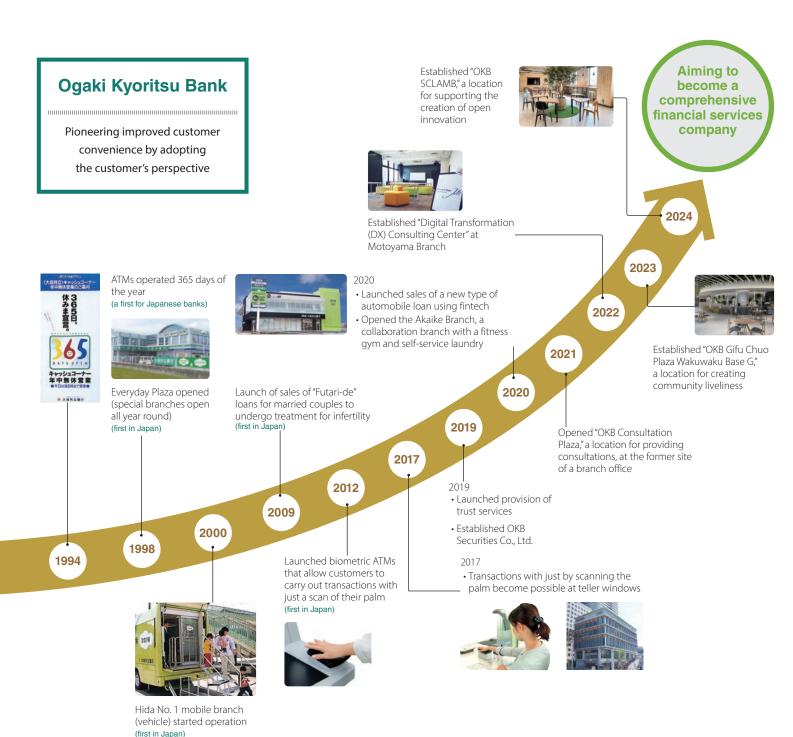

Our Fundamental Policy

The policy that lies at the heart of the business activities of the Company is to always view its products and services from the customer's perspective.

For many decades, Japanese banks had been protected by a web of regulations often described as the convoy system. Under this protection, the banks had cultivated no sense of competition, let alone a willingness to approach the issue of improving customer convenience.

In the 1990s, a wave of financial deregulation swept across Japan, heralding a new era in which banks could leave the confines of the convoy system and compete with each other by implementing their own ideas. In that context, we that the most urgent task for all directors and employees is to realize that a bank is no longer a privileged institution but a company in the service sector, which must compete by providing the most attractive and convenient services.

Since adopting this policy, we have consistently maintained a customer-first approach and tackled the challenges of the times, so that we could boost customer convenience. Some of our key initiatives are shown below.

Medium-Term Management Plan

Plan Period April 2024 to March 2027 (Three Years)

- Changing tomorrow, without changing our commitment

The Company started the Medium-Term Management Plan "Always - Changing tomorrow, without changing our commitment" (April 2024 to March 2027) from April 2024.

Long-term Vision

The OKB Group, making communities and employees happy-pursuing the "appreciation" of our customers-

- Realizing "community happiness" by fostering employee happiness (challenging and rewarding work)
- Realizing sustainability of communities and the OKB Group by having a presence that is needed by communities (= a presence that can make communities happy)

Basic strategies

• Our Medium-Term Management Plan is founded on the materiality of the Basic Policy on Sustainability, taking three pillars being the growth strategy, human resources strategy and strengthening the management base as basic strategies, and by also engaging in support for community innovation through our DX strategy, we contribute to the development of prosperous local communities.

KPI

	Item	Year ended March 31, 2025	Medium-Term Management Plan Numerical Targets	Long-term Numerical Targets
ROE (consolidated)	Profitability Striving to improve profitability by establishing a sustainable profit structure and through efficient management of capital	4.4%	3.5% or higher	5% or higher
Net income (consolidated)	Group profitability Striving to strengthen profitability for the entire Group	¥14.7 billion	¥12.0 billion or more	¥15.0 billion or more
Core OHR (consolidated) * Expenses ÷ Core gross business profit	Efficiency Striving to improve efficiency through expense controls, securing investment funds for sustainable growth	71.5%	75% or less	65% or less
Capital adequacy ratio (consolidated)	Soundness In addition to asset controls, maintaining appropriate levels of capital in light of the finalization of Basel III reforms	9.99%	9.0% or higher Finalization of Basel III reforms Transitional measures basis	¥9.5 billion or more Finalization of Basel III reforms Fully implemented basis

^{*} Applying the finalization of Basel III reforms from FY2024 with transitional measures to increase the risk weighting for equities over five years in steps from 100% to 250%

Basic Policy on Sustainability

The OKB Group recognizes that addressing sustainability issues is a key management task and is committed to realizing the Group's management vision by "contributing to the creation of sustainable communities as a leader of a recycling-oriented local community."

Management vision: To always be respected and trusted by the local community.

Response to TCFD Recommendations

The Company endorsed the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD) in December 2021. The Company will continue working to enhance climate change-related information disclosure in line with the framework in the TCFD recommendations.

Income before income taxes	20,011	13,593	133,834	
Net income attributable to owners of the parent	14,718	9,471	98,434	
Per Share Data (in yen and U.S. dollars):				
Net income attributable to owners of the parent —basic	¥353.53	¥227.54	\$2.36	
—diluted	353.01	227.24	2.36	
Net assets	7,647.89	8,134.85	51.14	
ROE	4.48%	3.02%		

Notes: 1. In this annual report, the Japanese yen in millions are indicated with fractions omitted.

^{2.} Figures stated in U.S. dollars in this annual report are translated from Japanese yen, solely for convenience, at the rate of ¥149.52 per U.S. \$1.00, the rate prevailing at March 31, 2025.

Business Performance (on a consolidated basis)

Total income (ordinary income plus extraordinary income) amounted to ¥131,364 million (US\$878,571 thousand), a decrease of ¥2,774 million year on year.

Total expenses (ordinary expenses plus extraordinary expenses) came to \$111,352 million (US\$744,729 thousand), a decrease of \$9,193 million year on year.

As a result of these and other factors, income before income taxes for the year totaled $\pm 20,011$ million (US\$133,834 thousand), while net income attributable to owners of the parent for the year amounted to $\pm 14,718$ million (US\$98,434 thousand).

Deposits & Loans (on a consolidated basis)

During the fiscal year under review, deposits decreased by \$42.2\$ billion year on year to \$5,731.4\$ billion (US\$38,332 million), mainly due to accounts held by individuals.

The year-end balance of loans and bills discounted decreased by ¥37.1 billion year on year to ¥4,469.6 billion (US\$29,893 million), mainly due to business loans.

Present Status of the Bank's Assets

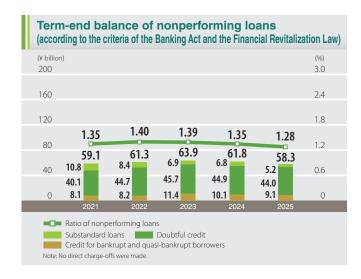

The balance of nonperforming loans subject to mandatory disclosure under the Banking Act and the Financial Revitalization Law fell by ¥3.5 billion from the previous reporting term, to ¥58.3 billion

The ratio of these loans to total loans and bills discounted decreased by 0.07 percentage points year on year to 1.28%.

The majority of these nonperforming loans are covered by reserves for possible loan losses or by collateral or guarantees. Consequently, the coverage ratio (coverage of total bad debt) was 88.0% (¥51.2 billion)

Capital Adequacy

In addition to the increase in regulatory capital as of the reporting term-end by ¥8.0 billion from the previous reporting term-end to ¥278.4 billion, the capital adequacy ratio increased by 1.12 of a percentage point to 9.99%, mainly due to a decrease of risk assets in loans.

Topics

Awarded the "Minister of State for Regional Revitalization Award for Outstanding Initiatives by Financial Institutions Contributing to Regional Revitalization" for FY2024.

In March 2025, the Company was selected for the "Outstanding Initiatives by Financial Institutions Contributing to Regional Revitalization" announced by the Secretariat of the Headquarters for the Creation of New Regional Economies and Living Environments under the Cabinet Secretariat, and it received an award from the Minister of State for Regional Revitalization

This award collects examples of collaboration with local governments and pioneering initiatives from among those contributing to regional revitalization by financial institutions and other organizations across the country, and selects, publicizes, and recognizes the most distinctive initiatives from among them.

OKB received the award in recognition of its efforts to support local government organizations in their tourism base development projects, the digitization of regional gift certificates, and the introduction of digital local currencies.

Going forward, the Company will continue to contribute to regional revitalization by supporting the resolution of various regional issues.

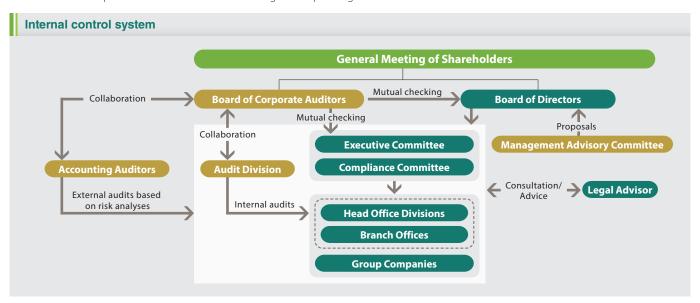

Corporate Governance

Basic Stance on Corporate Governance

Ogaki Kyoritsu Bank and its Group companies are pursuing the following as a means toward the ultimate objective: To always be respected and trusted by the local community.

- Seeking to achieve swift decision-making at the management level, as well as overall management efficiency
- Realizing transparent management through substantial disclosure of corporate information
- Demonstrating the sincerity of the Group by practicing compliance and making contributions to the communities in our home region.

 These are the basic policies that we follow in enhancing our corporate governance.

Establishment of the Internal Control System

The Company has drawn up a set of basic policies regarding the creation of an internal control system, and the management is working to enhance the effective functioning of the system, particularly with respect to compliance and risk management, and ensure its effectiveness.

We are also working to construct a system that will ensure the adequacy of the Group's internal controls on financial reporting under the Financial Instruments and Exchange Act.

The Board of Directors of Ogaki Kyoritsu Bank meets once a month in principle to make decisions on important matters and operational execution regarding the Company's management. In addition, they periodically report on the execution of operations and the risk status to the Board.

The Company also adopted a Corporate Officer system in order to revitalize the Board of Directors, speed up decision-making and enhance the business execution function by separating management's decision-making and supervision from business execution.

The Company ensures that operations are audited by its management by requiring its corporate auditors to attend meetings of the Board of Directors. To prevent complacency and to clarify its management responsibilities, the Company limits the term of office for directors to one year. With these initiatives, the Company is committed to strengthening the functions of the Board of Directors.

The corporate auditors of Ogaki Kyoritsu Bank hold meetings, in principle every month, to discuss, determine and report on important matters relating to audits, based on audit policies and audit plans resolved by the Board of Corporate Auditors.

The Executive Committee discusses important management matters, and controls and manages the Company's operations in general.

As an advisory committee to the Board of Directors, the Management Advisory Committee submits proposals concerning the nomination and remuneration of directors. The Compliance Committee, chaired by the president of the Company, holds regular meetings twice a year in addition to ad hoc meetings as deemed necessary, and sets out the Company's policies on legal compliance. A Compliance Manual—detailing the procedures to be followed to ensure compliance—is posted on the intranet where all executives and regular employees of the Company can access it, and compliance study sessions are held for each separate employee rank. In this and other ways, the management of the Company is actively working to foster a corporate culture grounded in the spirit of compliance and a thorough understanding of the laws applicable to the banking business.

Compliance

The management of Ogaki Kyoritsu Bank recognizes the importance of the public role played by banks, and the necessity of fulfilling corporate social responsibilities. The establishment of an effective compliance system is the vital first step that a bank must take to earn the trust of its customers and shareholders, and for this reason we are working to strengthen legal compliance within Ogaki Kyoritsu Bank.

The organizational structure of the Company's compliance system consists, first of all, of a Compliance Office within the Management Administration Division, which serves as the central supervisory unit for compliance-related matters. In addition, an officer responsible for compliance is designated within each division of the Company and at each branch office. By means of constant liaison and collaboration between these officers and the Compliance Office, we are able to operate a unified system for the monitoring of compliance, covering both the Company's head office and all branch offices.

Additionally, the Compliance Committee (chaired by the president) works to enhance the Company's practice of compliance, and is responsible for drawing up and revising the Company's Compliance Manual and Compliance Program, and for raising awareness of compliance issues among the Company's directors and employees.

The Compliance Manual, which is posted on the intranet where all executives and regular employees can access it, specifies the procedures to be followed to ensure the practice of legal compliance. By overseeing the day-to-day practice of compliance, the management of the Company is working to build a compliance-focused corporate culture. Staff education in the principles of compliance and specific banking-related laws is also provided by means of separate study courses for the different ranks in the Company's hierarchy, as part of the Company's rigorous approach to ensuring legal compliance.

Maintaining Organizational Flexibility

Inter-industry Training System

In 1998, we started an inter-industry training system that allows young bankers to experience working in other industries and to look beyond the boundaries of banking.

Participants train in a variety of industries, including mass media and manufacturing. Entry into the training program is by open application, and many young bankers enthusiastically apply. Those who are chosen spend about a year in their second workplace, where they consider the real meaning of service and how banks should act as companies within the service sector. Later, they provide feedback to the Company.

Convenience Plaza Handa is our representative branch designed from the customer's point of view. The idea came from a banker who took inter-industry training as the manager of a convenience store and then modeled a bank branch on a convenience store. Also, a banker who did inter-industry training at a TV station used his experience to plan, shoot, and edit a currently airing TV commercial for Ogaki Kyoritsu Bank as well as promotional videos shown in our branches.

Our inter-industry training system promotes flexible thinking that is not limited by bank boundaries and that drives us to provide services from the customer's point of view.

A trainee at a TV station shooting a scene

Handa Branch, aka Convenience Plaza Handa, planned by a trainee managing a convenience store

CSR Initiatives

Opening of "OKB Partners Community Square"

OKB Partners, a special subsidiary of OKB, has opened a new business facility, "OKB Partners Community Square," with the aim of supporting the independence of people with disabilities and contributing to the local community.

This facility serves as both a workplace for OKB Partners employees and a community space where local government agencies, special education schools, and businesses employing individuals with disabilities can interact and collaborate.

The facility features an open layout where visitors can observe OKB Partners employees at work, as well as dedicated spaces for consultations and information exchange regarding employment for people with disabilities. Through initiatives such as workplace tours, the facility aims to contribute to the independence of people with disabilities and the creation and expansion of employment opportunities for them.

Risk Management

Progress in Perfecting the Risk Management System

Ogaki Kyoritsu Bank is committed to managing its risks properly, by keeping them in balance with income. The Company has developed and adopted appropriate and effective risk management systems, based on risk details and scale. These systems comply with the Company's Risk Management Policies, which set out handling policies and organizational structures relating to risk management, and other risk management regulations, management procedures and risk management regulations are stipulated for each risk category.

Specifically, the Company has established committees dedicated to risk management, including the ALM Committee. The Company has also set up sections that manage risks in an integrated manner, as well as risk control and supervisory sections in each category. In doing so, the Company has built a system through which the risk status is reported regularly and as required from the risk management sections to the management directly. Operational audits are also carried out by the Audit Division, which is organizationally independent of the units of the Company that it audits, to confirm the appropriateness and validity of risk management.

Credit Risk Management

Credit risk refers to the risk of a reduction or elimination of asset value, and the resulting loss, owing to factors such as the aggravation of the financial position of borrowers.

The Company carries out rigorous credit screening on an individual loan basis prior to the extension of each loan, based on its Credit Risk Management Regulations, and follows this up with close monitoring of repayment. We also manage our loan portfolio as a whole. Through this two-pronged approach, we are able to maintain the soundness of the Company's loan assets.

Maintaining its objective and independent status, the Loan & Credit Supervision Division applies strict criteria to individual loans in both the credit screening and post-loan management phases to ensure that the loans contribute to the public good, have reasonable prospects of repayment, the loans are profitable, and borrowers have a sufficient degree of future growth potential.

In the management of the Company's loan asset portfolio as a whole, the Company conducts credit rating and self-assessments to ensure that there is no undue concentration of loans in particular industries, in particular corporate borrower sizes, or particular geographic areas. The aim of these regular checks is to disperse risk and create a well-balanced asset portfolio.

Market Risk Management

Market risk refers to the risk of a downward adjustment in the value of the Bank's assets (including off-balance-sheet assets) as a result of fluctuations in market factors, including interest rates, currency exchange rates and share prices, and the risk of a downward adjustment in the value of the Bank's assets as a result of fluctuations in income generated by assets and liabilities. This risk category is principally subdivided into interest rate risk, price fluctuation risk, and exchange rate risk.

Ogaki Kyoritsu Bank has drawn up a set of Market Risk

Management Regulations. The Company controls market risk adequately through the administration of its credit limits. In addition, the Company has established an organization that allows controls to function by separating the market risk management division (middle office) and the office work management division (back office) from the market division (front office).

Liquidity Risk Management

Liquidity risk refers to the possibility that the Company may not be able to secure sufficient funds from its normal sources for necessary operations, due to a mismatched term between fund procurement and investment, or the occurrence of a contingent withdrawal of deposits (known as funding risk). This may result in the Company being forced to take funds at considerably higher interest rates than normal, thus causing the Company to suffer a loss. Liquidity risk also refers to the possibility that the Company may not be able to engage in market transactions, due to factors such as market turmoil (known as market liquidity risk). This may result in the Company being forced to carry out transactions at much more disadvantageous prices than normal, generating a loss.

Ogaki Kyoritsu Bank has drawn up a set of Liquidity Risk Management Regulations. The Company is applying the rules so that it manages its funds in a conservative way. To prepare for any contingency, the Company has also adopted measures to deal with a liquidity crisis, and has established an organization that allows it to make an immediate response.

The ALM Committee

At meetings of the ALM Committee held each month, policies on securities management, funding and other matters are discussed and adopted to improve profitability by keeping market risk, liquidity risk and credit risk within their allowable ranges.

Operational Risk Management

Operational risk refers to the risk of loss resulting from bank business processes, the activities of executives and employees, or systems being inappropriate, as well as from external events.

The Company classifies risks into the categories of (1) administrative risk, (2) system risk, (3) legal risk, (4) human resource risk, (5) tangible asset risk, and (6) reputational risk, and addresses risk management in accordance with the Operational Risk Management Regulations.

Furthermore, at the Operational Risk Management Committee that is held on a regular basis, efforts are made to improve the effectiveness of risk management through discussions aimed at understanding the status of operational risks and possible countermeasures.

The management systems for the administrative risk and system risk, which are key proponents of operational risk, are as follows.

Administrative Risk Management

Administrative risk refers to the risk of losses, as a result of negligence on the part of executives and regular employees in the performance of clerical duties, accidents they cause, or acts of dishonesty they commit.

Ogaki Kyoritsu Bank is working to strengthen the administrative risk management organization in compliance with its Administrative Risk Management Regulations in order to minimize the materialization of foreseeable categories of administrative risk and thereby enable the Company to cope with the diversification of the banking business and the trend toward an increasing number of transactions.

Specifically, we are collecting and analyzing information on administrative errors so that we can put in place measures to prevent any recurrence and improve our administrative processes. We have also set up administrative work support teams to help the branch offices maintain an adequately high level of accuracy in administrative work. Members of the team visit the branches to supervise work procedures directly, and the team also conducts training courses to raise the skill levels of branch staff. In addition, regular training courses are conducted for different rankings of employees by division to raise the administrative skill levels of the whole Bank.

System Risk Management

System risk refers to the risk of the Company suffering monetary loss as a result of the crashing or serious malfunctioning of one or more of the Company's computer systems, or the unauthorized use of a computer system.

In view of the vital importance to a bank of the information in its possession and of the computer systems it employs, Ogaki Kyoritsu Bank has taken appropriate steps to protect the information in its safekeeping and to ensure the secure and continued operation of its computer systems.

Specifically, the Company has instituted computer system risk management, and has laid down the System Risk Management Regulations, which set out policies regarding the management of the computer systems themselves and the data (information) contained within them. The Company is exerting its full efforts to assure the confidentiality of information in its possession through the application of the Regulations.

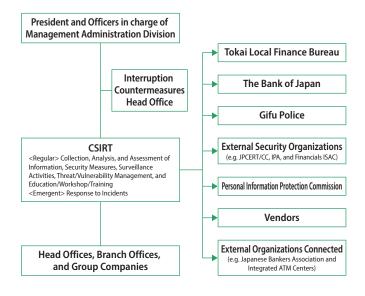

Information Asset Management

The term "information assets" as used here refers both to information itself and to the computer systems. In the event that confidential information is leaked to persons outside the Company, or improper use is made of the Company's information assets, the Company could suffer considerable damage.

To ensure that Ogaki Kyoritsu Bank conducts its banking business in an ethically correct manner, we have published our Security Policy, which clarifies the principles that the Company applies to the protection of information assets, in addition to the Customer Information Management Regulations, which set out in detail the procedures to be followed for the proper protection and use of the Company's customer information assets.

Response to Cyber Security

We position cyber security risks as one of our most important management issues, and under the leadership of senior management, we have established a management system for early warning and emergency response to cyberattacks, including the establishment of a Computer Security Incident Response Team (CSIRT), a cross-departmental organization to respond to the threat of cyber-attacks.

Overseas Topics

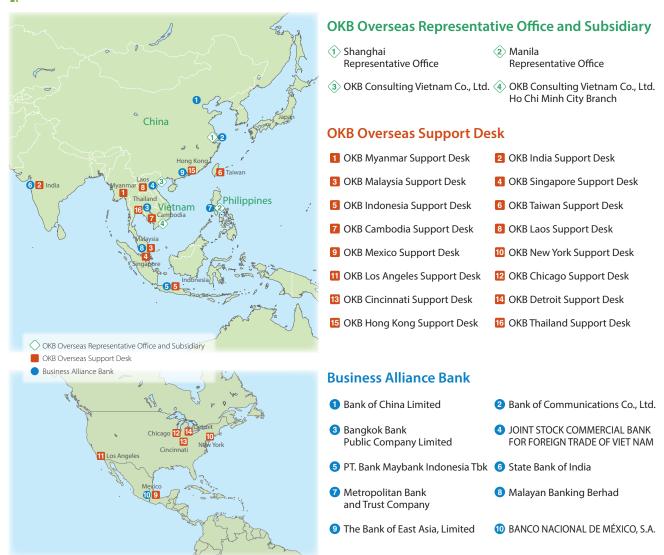

To Meet the Needs of Customers Who Are Expanding Business Overseas, the Company Has Built a Network through Business Alliances.

Ogaki Kyoritsu Bank strengthened its Asian support network by opening OKB Consulting Vietnam Co., Ltd., in Hanoi in April 2017, followed by the Manila Representative Office in the city of Makati, the national capital region of the Philippines, in May. The Company opened the Ho Chi Minh City Branch of OKB Consulting Vietnam Co., Ltd., in Ho Chi Minh City in March 2020. In addition to offering the "OKB Overseas Support Desk" service* by utilizing OKB's four overseas sites, the overseas sites of Sompo Japan Insurance and Mitsui Sumitomo Insurance, etc. as the contract points, we have established a support organization in 14 countries and territories, mainly in Asia, through alliances with leading local banks overseas.

* A service aimed at members of the OKB Asia Kyoritsu-Kai.

OKB Overseas Business Support Network

Our overseas network extending to 14 countries and territories, mainly in Asia (including Japan)
